We couldn't be prouder of this bot - Chad and I have put our blood, sweat and tears into turning it into reality

Considering the crazy number of hours we've poured into it, it would be fair for us to sell it for \$149.

But if we did that, the only people able to afford it would be, well, mostly the gurus. And that would sort of defeats the purpose of an anti guru bot, don't you think?

So we've decided to sell it for a more reasonable cost of \$67

However, in a moment of weakness (it happens) we've agreed to drop the price down to \$27 for the first 250 customers...

Once those copies are gone, we have to move it back up to \$67 (even if you PM us and ask nicely, we can't hook you up once the 250 are sold)

In other words, grab it now, before it goes back up to \$67
